TO OUR FRIENDS

IN THIS CATALOGUE we present a number of outstanding series of coins in a manner, it is hoped, worthy of their distinguished provenance.

To acquire pedigreed specimens, which at one time formed part of a celebrated cabinet, is every collector's dream.

The classical coins from the J. Pierpont Morgan Cabinet have been chosen for us by Mr. Wayte Raymond, who acquired the Morgan collection originally.

The Spanish and Spanish-American series from the Gibbs Collection of Pittsburgh were the pride of Mr. Howard D. Gibbs, whose name is perhaps too well known to need further introduction. He has been collecting for over forty years.

The lots from the Estate of the late B. G. Johnson of St. Louis call to mind the tradition of American greatness connected with this beloved dean of numismatists who passed away all too soon.

The series from the Amsterdam Estate of the late Max Schulman should be welcome among specialists in the various European series, many of which were among the clients of Mr. Schulman's numismatic firm.

A. M. Tracey Woodward's collection of Coins from China was one of the finest ever assembled, and the series here offered should attract many Far Eastern collectors nowadays specializing in this series. The Woodward collection was assembled over a lifetime in China, where the late owner made his home.

Lastly, the cataloguers wish to draw your attention to the fact that this is indeed an unrestricted, public auction sale, which does not allow so-called reserves or other minima imposed on certain lots. It is hoped that every item in this catalogue will get into the hands of interested buyers.

IMPORTANT NOTICE

The cataloguers have spared no expense in turning out this catalogue. Each series has been attributed by experts in their field. This explains the different styling which has been done for the convenience of the collector.
